## EXPERIENCE

### **Full-Stack Developer - Next Wave Services April 2008 – Present**

Led development of Next Wave Sites, a drag-and-drop, responsive website builder. Also worked with team to design and develop e-commerce websites, brochure websites, CRUD applications, mobile applications, email marketing campaigns and other custom solutions.

### **Designer - Glyphix January 2012 – May 2012**

Worked with team to design and develop several websites. Created a simple CMS and scheduling tool for a pet therapy program.

### **Web Designer & Developer - The Ohio State University June 2004 – August 2008**

Specialized in creating websites and web applications for various research departments. Worked with team to plan, design, and develop the in-house CMS. Also worked with some physical technologies such as gas pumps and weather stations to analyze, display and interact with the incoming data.

## EXAMPLES & PROJECTS

### **Next Wave Sites**

<http://nws.co>  
A drag-and-drop, responsive website builder.  
Design and Development

### **Perfect Icons**

<http://perfecticons.com>  
Custom social icon creation tool.  
Design and Development

### **Soc.js**

<http://socjs.com>  
An easier way to create social icons.  
Design and Development

### **Xtriv**

<http://xtriv.com>  
Live trivia game for crowd engagement.  
Game Design and Development
